

Theme: *Church Reproduction*

## *Planting & Parenting for Kingdom Growth*

*"...go and make disciples of all nations..." (Matthew 28:19)*

Dozens of denominational studies have confirmed that the average new church gains most of its members (60-80%) from people who are not attending any worshipping body. It's a simple fact that new churches best reach new generations, new residents, and new people groups. The question is, how?

Our next Ministry Leaders Gatherings will focus on concepts, principles and practices of church reproduction. Matt Pamplin, an experienced AGC church planter, will inform our conversations from a practitioner's perspective—outlining the principles used and lessons learned from trial and error.

This is a peer-learning opportunity, so come prepared to engage in the topic, discussing ways that your community—both church and neighbourhood—might be able to adapt and adopt lessons from colleagues.

*9:45-noon, followed by lunch at a local restaurant (optional)*
